DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 12-14, 17-19, 21-25 and 27-31 are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. Claim 12 only claims a method for adaptively controlling network traffic on a communications network. The claim does not produce a useful, tangible and concrete result. No practical application is claimed. The claim should be amended to include a step of (for example): transmitting the buffered traffic, or sending traffic (as in claim 20, line 8).

Appropriate correction is required.

Allowable Subject Matter

3. Claim 20 is allowed.
